

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

How to Measure

Level Measurements Only Are Used In These Recipes

Flour, meal, powdered sugar and soda should be sifted before measuring. A cupful is measured level; do not shake down.

A cup, as used in these recipes, holds one-half pint (two gills) of liquid, or one-half pound of granulated sugar or butter. A tin or glass measuring-cup, divided into quarters and thirds, can be purchased at any house-furnishing store for ten cents.

To measure a level tablespoon or teaspoon, make smooth with a knife but do not pat down.

A half spoonful is measured by cutting in half lengthwise; a fourth spoonful by cutting a half spoonful crosswise a little nearer the handle of the spoon.

A "pinch" is as much as you can hold between the first finger and thumb.

A family scale is a great convenience, both for use in cooking and for weighing purchases.

Rules for Testing and Using Fat for Frying

To Test Fat for Frying

1. Drop a piece of soft bread into the hot fat; if the bread browns in forty seconds, the temperature is right for any cooked mixture.
2. Use the same test for uncooked mixtures, allowing one minute for bread to brown. Fresh fat or oil should be used for batter and dough mixtures. It can then be used for fish, meat and croquettes, but should be frequently clarified.

To Clarify

Melt fat, add raw potato cut in small pieces, heat the fat gradually; when fat ceases to bubble and potatoes are well browned, strain through double cheese-cloth. The potato absorbs any odors or gases and collects some of the sediment. The remaining sediment will settle in the bottom of the pan. When you have only a small amount of fat to be clarified, add boiling water to the cold fat, stir vigorously and set aside to cool; the fat will float to the top and the sediment can be scraped from the bottom.

To Try Out Fat

Any odd pieces of fat may be tried out more easily in a double sauce-pan than by putting into the oven; it will then take less watching.

Sautéing

Sautéing is frying in a small quantity of fat. In many cases the word sauté might be used in this book but is not, as the word is not generally understood, so we have used the more common word "fry," which really means cooking in deep fat. All foods when fried should be drained on soft paper.

Fricasseeing

Fricasseeing is sautéing and cooking in a sauce.

To Egg and Crumb

Before frying, dip the mixture in bread-crumbs, then in the egg, then again in the crumbs. One tablespoon of cold water may be used with the egg to good advantage.

To prepare the crumbs put stale bread, thoroughly dried out, through the food-chopper, using the fine or coarse cutter according to the kind of crumbs required.

THE cheaper cuts of beef are best suited for the making of soup—the vein, neck, flank, cheek and shin. Though quite tough and sinewy they are full of nutriment and flavor.

Water cannot dissolve the fiber of the beef, so we therefore always remove the beef from the soup and make it over into meat dishes. The bones from roasts or poultry, or part of the steak from dinner, should all be put into a kettle, covered with cold water and simmered until the goodness is cooked out. Never boil soup-meat of any kind, for boiling hardens the meat without drawing out the goodness. Be quite sure to have a lid that closely fits the soup kettle or much of the goodness and flavor will pass off in the steam.

To Make Meat Soups

Wipe meat with clean cloth wrung out of cold water. Cut the lean meat in small pieces. By doing so a larger amount of surface is exposed to the water and the juices are readily drawn out. Always cover soup-meat with cold water and bring slowly to the boiling-point. If a portion of the meat is browned before adding water, the soup will have a richer flavor.

To Bind Soups

Cream soups and purees (purees are soups with the vegetables strained out or forced through a sieve) if allowed to stand, will separate, unless bound together. To bind a soup melt some butter, add an equal amount of flour and when mixed add a small quantity of the soup; then add to the remainder of the soup. In this way lumps will be avoided.

To Prevent Cream of Tomato Soup Curdling

Put soda with the tomato, allowing one-fourth teaspoon soda to two cups of tomatoes, then add to the thickened milk, stirring all the time. If you wish to keep the soup hot for a while, leave it in the separate sauce-pans and do not add the soda until ready to serve.

Croutons to Serve with Soup

These are made by cutting stale bread into thin slices. Remove the crust, spread with butter and bake until crisp and brown, or brown in the frying pan.

Beef Broth with Vegetables

Cook a beef bone with a little meat on it several hours in two quarts of water. When done, add one can of Larkin Tomatoes, three onions finely chopped, one pint chopped cabbage, one cup chopped potatoes, two tablespoons of Larkin Rice or Macaroni. Salt and pepper to season. Serve with oyster crackers. The vegetables are quickly chopped if put through Larkin Food-Chopper.

D. L. NUZUM, WATSON, W. VA.

Mutton Broth

Put two pounds neck of mutton on to boil in two quarts of cold water. Add one turnip, one head of celery, one leek and one carrot, all cut fine. Cook for one hour. Then add two potatoes cut in dice and one-half cup of noodles or macaroni and one-fourth can Larkin Tomatoes.

MRS. D. LEARY, WEST CHESTER, PA.

A Quick Soup

Take what is left of a roast that has a bone in it. Put it into a soup kettle, cover with cold water and simmer for one hour. Then add two tablespoons of Larkin Dehydro Soup Vegetables previously soaked in one-half cup of cold water for ten minutes. Add also four tablespoons of Larkin Rice and two potatoes cut in cubes. When nearly done, add one can of Larkin Tomato Soup, and salt and pepper to taste. Very good.

To Pan Broil Steak

Have the steak a little more than one inch thick. Make an iron pan very hot, rub it quickly with suet, then put in the steak. Never put the fork into the lean meat, always in the fat. Just as soon as one side is seared, turn over; turn several times in cooking; add pepper and salt; serve on a hot dish at once.

LARKIN KITCHEN.

To Broil Steak

See that the fire is bright and clear, put the steak on the grid-iron, turn often and allow time according to the thickness of steak; dust with pepper and salt and serve very hot. Steak to be good should never stand after being cooked.

LARKIN KITCHEN.

To Broil with Gas

Light the gas in the oven at least five minutes before you wish to use it. Take out the rack or the meat will stick to the bars if very hot; leave in the lower pan. Put the steak on the rack as near the flame as you can without the flame touching. As soon as the steak is thoroughly seared, turn the meat over; be careful not to put the fork into the lean of the meat as that allows the juices to escape; turn once more and season liberally with salt and pepper. Drain off some of the fat in broiling pan and pour the remainder with the sediment over the steak. Serve at once.

LARKIN KITCHEN.

Pot Roast

Take four pounds of beef from the shoulder. Put half a cup of good drippings in an iron kettle, make hot and sear beef on each side; when well browned set back where it will cook slowly for two hours; after the first hour add salt and pepper, a piece of celery, carrot, onion and bay leaf if liked; if cooked slowly no water will be needed. Pour off some of the fat and make gravy as for roast beef.

LARKIN KITCHEN.

Roast Beef

Wipe meat with damp cloth, place in baking pan bone side down, dust lightly with pepper; if there is no fat with meat, cut up a piece of suet and place around beef. The oven must be very hot. After first twenty minutes, cool off oven a little, add salt. Allow fifteen minutes to the pound for cooking and, unless a covered roaster is used, baste every ten minutes. To make gravy, lift out beef, pour off fat, scrape together all brown sediment from around pan, allow two tablespoons flour to two of fat, mix well; then add hastily one pint of water or stock, boil up well, add salt and pepper, strain and serve.

LARKIN KITCHEN.

Swiss Steak

Have two pounds of round steak cut one inch thick. Melt two tablespoons of fat (suet will do) in a frying pan, season steak with salt and pepper, dredge with flour, brown quickly on both sides then put into a Larkin Casserole. Brown a scant half cup flour in fat left in pan, add three cups hot water, pour over the meat. Cook for two hours in a slow oven. If onion is liked, flavor with Larkin Onion Extract, or cook a raw onion in the fat before the meat is browned. The toughest meat will become tender and delicious, cooked in this way.

MRS. D. H. DAGER, LAFAYETTE HILL, PA.

Spanish Steak

Two pounds top round steak cut about two inches thick, leave on the fat. Brown in hot frying pan, then add three-fourths cup boiling water, cover and bake forty-five minutes in moderate oven. Sprinkle with salt and pepper; cover with layer sliced seasoned onions. Bake another hour. Then cover with layer of the solid meat of a can of Larkin Tomatoes. Bake again fifteen minutes. Sprinkle over top two tablespoons grated cheese; place in oven long enough for cheese to melt. There will be a delicious thick gravy and the steak will be very tender.

MRS. M. C. DURKIN, SHAMOKIN, PA.

Hamburg Steak with Tomato Sauce

Put one and a half pounds of round steak through the food-chopper, add one or two eggs, one cup of Larkin Cracker Meal or stale bread-crumbs, salt and pepper, one small onion finely chopped, water or milk to moisten; mix thoroughly. Form into small cakes. Cook slowly in a small quantity of hot fat. When steak is cooked, empty one can of Larkin Tomato Soup in frying pan, when boiling pour over steak and serve at once.

MRS. E. E. NOEL, CANTON, OHIO.

English Beef Steak Pudding

Sift three cups of Larkin Flour with two teaspoons of Larkin Baking Powder and one teaspoon salt. Chop one-quarter pound, or one-half cup of suet, quite fine, mix with flour, add enough cold water to make a stiff dough. Roll out and line a bowl with it. Cut up one pound of round steak in one-inch pieces, season with pepper and salt, and roll in a little flour. When bowl is half full of meat pour in one-half cup of water, add the rest of meat. Trim off crust and roll out a lid to fit on the top. Pinch the edges together, dip a cloth into boiling water, then in flour so it won't stick, cover over pudding, tie down and boil or steam for two and one-half hours. This may be boiled in a cloth but is not so good. Turn out to serve.

MRS. H. M. ROTH, ALBANY, N. Y.

Family Meat Loaf

Put one and a half pounds of round steak through food-chopper, also one onion. Soak stale bread in cold water (about one cup) squeeze out with the hands, add to beef, season with salt, pepper and celery salt; mix thoroughly. Jellied Beef Loaf

Buy a soup bone with some meat on it (shank is the best), put in soup kettle, cover with cold water, add one onion, one carrot and a small bay leaf and simmer gently for several hours or until the meat will fall from the bone. When it is done, put a little of the liquor in a saucer to chill. If it does not "jell" add enough Larkin Gelatine to stiffen, season with pepper and salt. Pour in molds rinsed with cold water. The meat may be put through the meat grinder if preferred.

MRS. F. L. FAECHER, AUGUSTA, KANS.

Jellied Veal or Chicken

Have broth boiling; drop in dumplings with a teaspoon; let them rest on the meat; cover tight and boil gently for twenty minutes without lifting the cover. If you follow this rule, you will have the lightest and tenderest dumplings you ever ate.

MRS. THOMAS MORGAN, PITTSBURGH, PA.

Potato Dumplings

Pare three medium-sized potatoes and boil until tender. Put through potato ricer or mash quite fine. Add to them one cup flour, one teaspoon salt, one egg lightly beaten. Handle as little as possible, roll out and cut in six squares. These may also be steamed.

MRS. WILLIAM STARKE, METHUEN, MASS.

MRS. H. H. BENTHEIMER, GREEN BAY, WIS.

Roast Pork

Wipe pork with a damp cloth, sprinkle with pepper, salt and flour. Put into covered roaster, leave off the cover first thirty minutes, then cover closely. Allow twenty minutes for each pound. Bake in a moderate oven. Make gravy as for beef. Apples, with the cores removed, may be placed around the pork to bake. This gives the pork an excellent flavor.

LARKIN KITCHEN.

Baked Pork Chops

Pare seven good-sized potatoes, slice as for scalloped potatoes. Take one and a quarter pounds of lean pork chops (loin preferred), put a layer of potatoes into a Larkin Casserole or Baking Dish, then a layer of pork chops, dust with salt and pepper, sprinkle with chopped onion, continue until all is used. Have potatoes on top. Pour in one cup of water or milk. Put on the cover and bake in moderately hot oven for one hour and forty minutes; uncover during the last ten minutes so potatoes will brown. Serve direct from the Casserole. Delicious.

MRS. WM. HESS, ST. LOUIS, MO.

Apple Fritters

Sift three times, one cup Larkin Pastry Flour, with three table-spoons sugar, one teaspoon Larkin Cream of Tartar Baking Powder, one-fourth teaspoon Larkin Salt; add one well-beaten egg, one-third cup milk and two tart apples, pared, cored and sliced. MRS. A. E. HENDERSON, TWIN FALLS, IDAHO.

Larkin Sauerkraut

Put into a kettle one quart of Larkin Sauerkraut, one pound of fresh pork, two onions put through Larkin Food-Chopper and water enough to cover. Cook slowly three hours. The longer it is cooked the better, but it should be cooked almost dry when done.

MRS. ROY S. HEATWOLE, HARRISONBURG, VA.

Salt Pork with Cream Gravy

Cut required amount of pork in moderately thin slices. Place in spider and cover with boiling water, cook a few minutes, take out and dip each piece in milk, then in flour. Stir two tablespoons of flour into the fat, add pepper and salt if needed, add to this one pint of milk, stirring until gravy thickens. Pour gravy over pork and serve with baked potatoes. Delicious.

MRS. H. WRENCH, GOODRICH, WIS.

Boiled Ham

Soak ham several hours or over night in cold water to cover. Wash thoroughly, put into a kettle, cover with cold water, heat to boiling point and cook slowly until tender, allowing twenty minutes to the pound. Remove from range and set aside so that ham may partially cool; then take from water, remove outside skin, sprinkle with fine brown cracker-crumbs and stick with cloves one-half inch apart. Or it may be covered with brown sugar and baked in the oven until brown. Cabbage and potatoes may be cooked in the water in which the ham is boiled and served with the ham as a boiled dinner.

LARKIN KITCHEN.

When Frying Ham

Slice and fry in usual way. Then over fried meat pour hot water and immediately pour off again. This freshens the ham and leaves it tender and delicious. Use the water, which is rich in meat flavor, to make the gravy. Larkin Bacon may be cooked in the same way.

MISS CHARLOTTE BIRD, ANN ARBOR, MICH.

Deviled Ham and Eggs

Put bits of ham through a Larkin Food-Chopper. For one cup of ham, put into a frying pan one tablespoon of butter, add one tablespoon of Larkin Flour, one teaspoon of vinegar, Larkin Pepper, and a fourth of a teaspoon Larkin Mustard and one-half cup of water. MRS. C. FLINN, NORTH TERRE HAUTE, IND.

Pork Sausage

Mix well and shape into small flat cakes with the hands; dust lightly with flour or rolled cracker-crumbs, and sauté in a little hot fat.

MRS. SIDNEY R. LODDER, SYRACUSE, N. Y.

When making pork sausage use one-third fat and two-thirds lean. Put through food-chopper and, to every twelve pounds of pork, take twelve teaspoons salt, six teaspoons pepper, nine teaspoons sifted sage. Mix well with the hands and put through the food-chopper again. Keep in a cool, dry place.

MRS. E. THOMAS, BRISTOL, CONN.

MRS. GEORGE CLANSZ, PEARL RIVER, N. Y.

Sausage Rolls

Make pastry as for pie-crust, using one and a half cups of Larkin Pastry Flour, one-half cup Larkin Pure Lard and one-half teaspoon Larkin Salt. Mix with cold water. Roll out and cut in small squares. Put one piece of Larkin Luncheon Sausage on each square, and pinch the edges together. One can of sausage makes eight of these rolls. Brush over with white of egg and bake in a hot oven. Very delicious for lunch when serving Club-of-Ten. Fresh pork sausage may be used if it is either parboiled or baked in the oven before using.

MRS. H. WRENCH, GOODRICH, WIS.

To Cure Hams, Bacon and Dried Beef

MRS. EDW. THOMAS, BRISTOL, CONN.

Roast Veal

The leg and loin are most suitable for roasting. Wipe meat with a damp cloth, sprinkle lightly with Larkin Salt and Pepper, dredge with flour. Place slices of salt pork over and around meat. Veal is best cooked in covered roaster. If cooked in an open pan, baste often. Make gravy as for beef.

LARKIN KITCHEN.

Veal Loaf

Put one and one-half pounds of veal through the food-chopper with one-half pound of salt pork, also eight Larkin Soda Crackers and two or three sprigs of parsley. Add Larkin Pepper, Salt and two tablespoons lemon juice, also two eggs slightly beaten. Bake in a greased bread-pan one hour in a moderate oven. Baste occasionally if necessary.

MRS. H. F. RIEMER, DETROIT, MICH.

Sweetbreads

Sweetbreads spoil very quickly. Remove from the paper as soon as received. Put into cold water, add a little salt, leave for one hour, drain, cover with boiling water, add a little salt. Cook slowly twenty minutes, drain and cover with cold water, so that they may be white and firm. To broil; cut in slices, sprinkle with salt and pepper, dip in bread-crumbs, sauté in frying pan. Serve with green peas.

LARKIN KITCHEN.

To Roast Poultry

One rule will apply to all poultry.

Have oven very hot until skin is browned, then cool, and if poultry is stuffed, cook twenty minutes to the pound; unstuffed, fifteen minutes. Salt pork is very nice to use for basting purposes; baste frequently if in open pan. A covered roaster is much to be preferred as no basting is then required.

LARKIN KITCHEN.

Fried Chicken

Singe, clean and cut in pieces ready to serve, dip in cold water, drain but do not wipe; sprinkle with salt and pepper and dip in flour. Cook in hot pork fat or Larkin Cooking Oil, serve with gravy made in the pan with milk.

LARKIN KITCHEN.

Maryland Chicken

Dress, clean and cut up a chicken; sprinkle with salt and pepper; dip in flour, egg and crumbs; place in well-greased dripping pan and bake in hot oven, basting with butter or other fat. Arrange on platter and pour over it two cups cream sauce.

LARKIN KITCHEN.

Pot-Roast Chicken with Dumplings

Cut up the chicken, wash and dip in flour, brown in hot fat, cover with boiling water, add pepper, salt and one carrot and one onion if liked. Cover kettle so all the flavor will be retained, simmer until tender. If an old fowl it will take two or three hours. When almost tender add one cup of Larkin Rice or drop in dumplings ten minutes before serving. Do not remove the cover after the dumplings are in or they will be heavy.

MRS. GEORGE CLANSZ, PEARL RIVER, N. Y.

Chicken Pie

Cut up a chicken as for stewing, cover with boiling water, add pepper and salt, cook until tender. Remove the large bones and place chicken in a baking dish, slightly thicken the gravy. Do not have the baking dish more than three-fourths full. Make a good biscuit dough and cut in rounds as for biscuits. Place the biscuits over the chicken leaving room for the steam to escape. Bake in hot oven until thoroughly done. This is an improvement over the old style crust as the biscuit is more easily served and never becomes soggy. MRS. R. E. BEST, DECATUR, ILL.

Chicken, Creole Style

Chop fine, one green pepper, one onion and two large tomatoes, or use one and one-half cups of canned tomatoes. Put some butter or other fat in a sauce-pan, add the onion and pepper and cook until soft, but not brown. Brown the chicken, then cover it with boiling water, add the tomatoes and simmer until tender (if an old fowl, about two hours). Sprinkle one cup of washed rice over the chicken, put on lid and cook another half hour. This is very delicious. Veal or mutton may be used in place of chicken.

MRS. G. NOMDEDEN, BALTIMORE, MD.

Extra Dressing for Chicken

In making an extra supply of dressing this is a nice way to fix it. Scrape out the inside of two half-loaves of bread, leave the crust thin. Rinse out the inside with cold water and fill with the extra dressing. Invert on pie tin and bake about forty-five minutes. This will be found very nice.

MRS. ANDREW RICHARDS, PERRINTON, MICH.

Dressing for Geese, Ducks and Pork

Chop, or finely slice, four onions, cook until soft, drain off the water, add two cups of bread-crumbs, one teaspoon dried sage, salt and pepper to taste.

MRS. HORACE ANDERSON, DOVER, N. J.

Rabbit en Casserole

Put into a Larkin Casserole, add chopped onion, sprinkle with flour, add sufficient water, made slightly acid with mild vinegar, to cover. When rabbit is prepared in this way it loses the peculiar flavor many people object to. You will find this a very delicious dish. Bake one hour or more. Serve from the casserole.

MRS. R. W. SLEETER, ROCKFORD, IOWA.

Fried Rabbit

Skin, wash and cut up two rabbits. Cover with cold water and cook until tender. The water should not boil, only simmer. Roll the rabbit in seasoned flour and brown in hot fat. Use the liquor in which they were cooked, for making gravy.

LARKIN KITCHEN.

Rabbit in Covered Roaster

Clean and joint a rabbit, roll in flour, season with pepper and salt. Add a slice of pork cut up in small pieces. Place in covered roaster, add one pint of boiling water, put on the cover and bake for one hour in medium oven. Then add potatoes and bake another forty-five minutes. This may also be cooked in the same fashion as a pot roast.

MRS. JOSEPH LARDIFF, DULUTH, MINN.

Filled Cabbage Leaves

Separate the leaves of a medium-sized cabbage, pick out the best, pour over them boiling water, leave for a few minutes. Cook one-half cup rice, mix with it one pound Hamburg Steak, add one-half teaspoon Larkin Onion Extract, salt and pepper to taste. Line a kettle with the outside cabbage leaves. Fill the scalded leaves with the prepared meat. Roll up; lay closely together in kettle so they will not separate. Add one teaspoon salt, a little pepper, three-fourths cup canned tomatoes, three tablespoons bacon fat or butter, and water to almost cover. Put on the lid. Cook gently thirty minutes. Remove the filled leaves, add one egg beaten light, and the juice of one lemon to the liquor in the kettle. Stir until thick, but do not allow to boil or it will curdle. Pour sauce over cabbage leaves and serve at once.

MRS. WM. SCHNEIDER, BUFFALO, N. Y.

Stuffed Cabbage

Wash a cabbage weighing about four pounds. Tie in a cloth and cook in boiling salted water until wilted. Take out and lay on a platter; turn back the leaves. Cut out the heart and place in a chopping bowl with four hard-boiled eggs, and one pound of pork sausage. Season with salt and black pepper, chop fine. Make a ball, place in center of cabbage, fold over the leaves one at a time, tie up in the same cloth, and boil gently for one and one-half hours.

MRS. EDITH WILSON, GRAND ISLAND, NEBR.

COLD MEAT COOKERY

Beef with Tomatoes

Two cups of chopped cold meat, one cup of canned tomatoes, one cup of cracker- or bread-crumbs, salt and pepper. Put a layer of meat in a baking dish, and over it a layer of tomatoes, then a layer of cracker-crumbs, next a layer of meat and so on until dish is filled. Bake about thirty minutes.

MRS. THERESA SCOFIELD, AMSTERDAM, N. Y.

An Economical Meat Dish

Take any left-over meat, chicken, beef, or pork, cut into cubes. Heat in gravy or a white sauce, well seasoned. Put meat in center of platter, surround with a can of heated Larkin Pork and Beans. Garnish with parsley or celery tips. This uses up scraps of meat you would sometimes throw away, and, combined with the nutritious beans, it may be used as the main dish for luncheon or supper.

MRS. S. E. RICHARDSON, TOPEKA, KANS.

"Different" Hash

Put any cold meat on hand through a Larkin Food-Chopper. To two cups of the cold meat allow one-half pound of fresh round steak, put this through the food-chopper also. Cut up one large onion in small pieces, put some drippings into the frying pan; when quite hot put in the onion, brown thoroughly and add the chopped raw beef, dust with salt, paprika and celery salt. When this is brown, add the cooked meat to it. Prepare raw potatoes as for potato chips and fry in another pan, drain and salt. Then add to the hash. Pour over some gravy if you have it, if not use water. Pack the hash down in the pan and cook over a moderate fire about ten minutes. Place a dish or round plate over the pan and turn out. You will then have a beautifully browned, savory meat dish. This is a little more trouble than the ordinary hash but it is worth it.

MRS. H. ARMBRUSTER, BROOKLYN, N. Y.

Michigan Hash

One pound of Hamburg Steak, two tablespoons of chopped onion, one cup cooked Larkin Rice and two cups cooked Larkin Macaroni. Rice and macaroni may be hot or cold. Place in layers in baking dish; season each layer with Larkin Salt, Black Pepper and Celery Salt. Casserole of Rice and Meat

Put three cups of cold cooked meat and one-half onion through Larkin Food-Chopper, add salt and pepper, two eggs slightly beaten and two tablespoons bread-crumbs. If you have any soup stock on hand, add sufficient to moisten well; if not, use milk. Butter a mold, line with boiled rice, then add layer of meat, then rice and so on until dish is filled. Have layer of rice on top. Cover closely and steam forty-five minutes. Serve with brown gravy or tomato sauce.

MRS. L. W. KINNEY, LAKE CHARLES, LA.

MRS. THOS. E. LEWIS, FOSTORIA, OHIO.

Minced Beef

Put scraps of cooked meat through Larkin Food-Chopper, season with pepper and salt, place in a frying pan with a spoonful of butter and enough water to moisten. Season pieces of cold chicken or turkey with salt and pepper. Dip in melted butter; let this cool on the meat, and dip in beaten egg, then in fine bread-crumbs. Fry in hot fat until a delicate brown. Serve on slices of hot toast, with a cream or curry sauce. Pieces of cold veal are nice prepared in this way.

MRS. DAVID DAVIES, REMSEN, N. Y.

Chicken Hash with Noodles

Put left-over chicken through Larkin Meat-Chopper, add one cup of gravy or a Larkin Bouillon Cube dissolved in one cup of hot water. Take one-quarter of a pound or one cup of Larkin Egg Noodles, cook in boiling water for ten minutes, drain, then add two cups of Larkin Tomatoes, two teaspoons of sugar, pepper and salt to taste. Dust over a little salt and pepper and dot with butter. Continue layers until all is used up. Have a layer of cracker-meal on top. Pour over any gravy you have, if not sufficient, use a little milk or water. Bake forty-five minutes. This is delicious and makes a good hearty meal.

MRS. JAMES A. CUMMINGS, GOUVERNEUR, N. Y.

Prepare a dressing as suggested in Mock Duck. Mix with two cups or one pound of cold, cooked beef, veal or pork. Mold in a bread pan, turn into a dripping pan, add a few slices of bacon or pork, or drippings. Bake slowly forty-five minutes. Serve with tomato sauce or brown gravy.

MRS. M. G. ROWE, FORT SMITH, ARK.

Escalloped Potatoes

Pare and dice amount of raw potatoes needed. Butter a baking dish, put in layer of potatoes, sprinkle with flour and salt. Add another layer of potatoes and continue as before, until pan is three-fourths full. Then add sufficient cream to cover (milk and butter may be used in place of cream). Bake in hot oven for forty-five minutes. They should be brought to a boil quickly or the milk may curdle.

Mash cold potatoes smooth with a fork. Add one tablespoon of flour, a little butter, salt and pepper; work all together and pat into thin round cakes. Fry in hot fat. Delicious for breakfast or supper.

MRS. HARVEY CHAMBERS, MAYSVILLE, KY.

Stuffed Potatoes

Select six smooth potatoes of uniform size, wash clean, wipe and put into hot oven to bake. When thoroughly baked, cut in halves, scoop out the inside, take care not to tear shells, mash potato smooth, add one-half cup cream, two tablespoons butter, and one teaspoon of Larkin Peanut Butter. Salt to taste. Beat light, fill in shells, put into a baking pan and bake a light brown. Serve hot. If desired these can be prepared some time before needed, bake when ready to serve.

MRS. W. L. UMBARGER, KONNAROCK, VA.

MRS. WINNIE HOWELLS, MURPHYSBORO, ILL.

Potato Fritters

Mix together two cups of hot potatoes put through vegetable ricer, or mashed very fine, two eggs beaten, four tablespoons flour diluted with a little milk, one-fourth teaspoon Larkin Salt. Fry in deep hot fat, about a dessert spoonful makes a nice size fritter, or form into small cakes and sauté in frying pan. If not thick enough, add a little more flour.

MRS. MARGARET R. SCHUTTE, TAMPA, FLA.

Boiled Turnips

Peel and slice the turnips. Cover with a generous amount of boiling water, cook until tender, not longer. If they are to be mashed, drain thoroughly and mash with a wooden potato masher. Season with salt, butter and pepper and serve at once. When cooking turnips, two things should be kept in mind: to add salt when cooked, and not to over-cook. Turnips cooked in salt water become pink and develop a bitter flavor.

LARKIN KITCHEN.

Peas in Turnip Cups

Hollow out the centers of small white turnips. Cut the edges in points, steam or boil gently until tender. Make a sauce with two tablespoons of butter, two of flour and one cup of milk, add salt and one-half cup of Larkin Green Peas. When quite hot fill the cooked turnips and serve one to each person.

MRS. JOHN BARTL, ROCHESTER, N. Y.

Baked Peas

FLORENCE C. THAYER, STONEHAM, MASS.

To Boil Parsnips and Carrots

Scrape parsnips, cut in halves, put into cold water. When ready to cook, cover with boiling water and cook slowly until tender, about three-quarters of an hour. Young carrots will cook in thirty minutes.

LARKIN KITCHEN.

To Cook String Beans

As you string and cut the beans, put them in cold water to keep crisp. When ready to cook, put the beans into a sauce-pan, add a piece of butter such as you would use to season them, and a very little water. Cook over a moderate fire, add salt and a little more water if needed. Keep the cover on during the cooking; add milk when done and serve hot. The beans will have an excellent flavor when cooked in this way.

MRS. A. B. DE LONG, CRESTON, IOWA.

String Beans with Bacon

Remove the strings from yellow or green beans and cut in one-inch pieces. Slice two small onions and a small piece of bacon, add a pinch of Larkin Cayenne Pepper, and a little Larkin Salt. Put into a sauce-pan, cover with boiling water and cook until tender. Let the liquor cook down before taking from the stove. The onion is not objectionable as so small an amount does not give a decided taste. This is a good substitute for a meat dish.

MRS. ELSIE SRACOY, BRAINERD, MINN.

To Boil Cabbage

Cut a small head of cabbage into four parts, cutting down through the stalk. Soak for half an hour in a pan of cold water to which has been added a tablespoon of salt—this is to draw out any insects that may be hidden in the leaves. Take from the water and cut into slices. Have a large stew-pan half full of boiling water; put in the cabbage, pushing it under the water with a spoon. Add one tablespoon of salt and cook from twenty-five to forty-five minutes, depending upon the age of the cabbage. Turn into a colander and drain for about two minutes. Put into a chopping bowl and mince. Season with butter, pepper, and more salt if required. Allow a tablespoon of butter to a generous pint of the cooked vegetable. Cabbage cooked in this manner will be of delicate flavor and may be generally eaten without distress. Have the kitchen windows open at the top while the cabbage is boiling and there will be little if any odor of cabbage in the house.

MRS. JOHN A. CONOVER, GAMBRILLS, MD.

Lentil Stew

Pick over and wash one cup of lentils, soak over night in a quart of water. The next morning put them on the fire and simmer in the water in which they were soaked. This will take about three hours. Add any vegetables you have on hand. I use a small onion and one potato. A little left-over meat or gravy or both added to stew during the last half hour gives it a delicious flavor. Cut the meat into small pieces. Keep just enough water on lentils so they will not burn. Add salt, pepper and butter to taste, before serving. We have this meal instead of meat at short intervals and find it very satisfactory. To cook with ham or corned beef prepare in the same way, using more water.

MRS. W. R. YOUNG, No. TONAWANDA, N. Y.

MRS. AUGUST HALBERSLABEN, MADISON, WIS.

Cabbage Salad

Cut a hard cabbage into halves and then with a very sharp knife shred fine the desired quantity; as you shred it put it into a bowl of very cold water and leave for two hours. It will be more crisp if you change the water once or twice. When ready to serve, put into a cloth and swing around until dry. Mix with simple dressing and serve at once, or the cabbage will lose its crispness. Celery may be added if liked.

MRS. WM. NOLLER, TROY, N. Y.

Easy Mayonnaise

I have discovered that when oil dressing is made in the following manner it never fails. To the yolks of two fresh eggs, add one tablespoon vinegar, beat well, then add one-fourth teaspoon salt and one-half cup or more Larkin Olive Oil; beat constantly while pouring it in. The old-fashioned way is to drop the oil in very slowly but if the vinegar is added to the eggs first, the oil may be poured in much faster, and the mayonnaise will never curdle. Season with Larkin Celery Salt, Larkin Onion Extract, Mustard or any other seasoning you prefer.

MRS. MELVIN SMITH, AVON, N. Y.

Creamy Salad Dressing

Put into a double sauce-pan four lightly-beaten eggs, and one-half cup each of vinegar and water. Stir over the fire until thick, then add one-half cup butter. Mix together one teaspoon each of Larkin Mustard and sugar and a pinch of white or cayenne pepper. Add a spoonful of the cooked dressing to these seasonings and stir until smooth. Add balance of dressing and thoroughly mix. Thin with milk or cream as needed. Use more vinegar if liked quite sour. Whipped cream folded into this makes a very light dressing for salad. This will keep for weeks in a Mason jar if screwed down tight and left in a cool place.

MRS. EVA S. PUGH, BROWNELL, KANS.

Sue's Salad Dressing

Mix one teaspoon Larkin Mustard, one teaspoon sugar, and the yolks of two eggs. Add one-half cup vinegar and cook until thick. Then fold in the stiffly-beaten whites of two eggs. Cook for two minutes, cool, thin out with milk or cream as needed. The beaten whites insure a light, fluffy dressing.

French Dressing

Rub a small bowl with garlic or onion, then put in one-half teaspoon Larkin Salt, one-fourth teaspoon each of Larkin White Pepper, Mustard, Sugar and paprika, add six tablespoons Larkin Olive Oil, stir in drop by drop two tablespoons Larkin Vinegar. LARKIN KITCHEN.

MRS. CORA EDWARDS, MEMPHIS, TENN.

Salad Suggestions

A person with ingenuity will make a salad with whatever happens to be on hand. Here are a few suggestions:

Equal parts of white grapes (seeded) and diced bananas.

Juicy apples and oranges, cut in dice. Add a few Maraschino cherries.

Hard-boiled eggs, celery and English walnuts.

Apples, oranges and blanched almonds.

Marshmallows, walnuts and pineapple.

Tuna Fish, celery and boiled dressing.

Chopped beets, cabbage and hard-boiled eggs.

Cabbage and apples, boiled dressing.

To Boil Eggs

Eggs are cooked in many ways, but for cooking in the shell there is no better way than to put the egg into one pint of boiling water, cover, stand in a warm place, leave for six minutes, when the eggs will be cooked through, but soft; if liked very soft, allow less time. Be sure to have enough water, according to the number of eggs; if two eggs are needed use one quart of water, and so on accordingly. To cook eggs hard leave them in the water for thirty-five minutes. Then put them in cold water for five minutes.

LARKIN KITCHEN.

To Turn and Fold an Omelet

Tip pan so as to bring one side of omelet higher than the other. Place spatula under higher side and tipping pan to almost a vertical position, carefully fold over. If a half-inch cut is first made at each end of fold, the omelet folds more easily and without breaking.

LARKIN KITCHEN.

Poached Eggs

Have a shallow pan nearly full of boiling salted water, remove scum and reduce temperature until water is motionless; break an egg into a saucer and slip into the water; when a film has formed over the yolk and the white is firm, take up with a skimmer and place on toast which has been trimmed into shape. A much easier way is to use Larkin Double-Boiler and Egg-Poacher which poaches five eggs at one time.

LARKIN KITCHEN.

French Omelet

To four eggs allow three-fourths cup cold water,—salt and pepper to taste. Beat the eggs very light, then add the water and thoroughly mix. Pour into hot greased frying pan, run spatula around the edges and lift slightly to allow the thin part to run underneath. Serve at once on a hot platter.

LARKIN KITCHEN.

Puffy Omelet

Separate three eggs; with the yolks, put a little pepper, salt and one tablespoon cold water; beat the whites to a stiff froth; lightly mix in the yolks. Make a pan rather hot, grease lightly, pour in the mixture, cook three minutes on hot stove, then place in a hot oven and cook until just setting; fold over and turn onto a hot platter. If your oven is not hot turn the omelet carefully over and finish cooking on top of stove. Minced ham, or beef, with a tablespoon chopped parsley, is very good, either stirred into the mixture or placed on the top. Grated cheese is very nice sprinkled over the omelet just as you put it in the oven.

LARKIN KITCHEN.

Corn Omelet

Use rule given for puffy omelet. Fold in one-half cup canned corn; take care not to stir the mixture.

LARKIN KITCHEN.

Bread-Crumb Omelet

Separate the whites and yolks of three eggs. Beat the yolks light, add to them one-half cup fine bread-crumbs, one-fourth teaspoon salt, a few grains of pepper and one-half cup milk. Then fold in the stiffly-beaten whites. Put two teaspoons butter into a smooth frying pan, when hot pour in the omelet and cook over a slow fire. MRS. LENORA GANT,
MINNEAPOLIS, KANS.

Macaroni is an excellent food, wholesome, delicious and digestible. Larkin Macaroni contains a large amount of nutriment in the form of starch, protein, and mineral matter, as only the best flour obtainable is used.

It is thoroughly dried before packaging, so that there is practically no loss in weight. It is truly an economical article of diet and can be prepared in a great variety of ways. This wholesome food should be found more often on our tables.

If macaroni lacks flavor it is due to improper cooking. Follow directions given and so get best results.

To Cook Macaroni

Partly fill a large kettle with water, adding one teaspoon salt to each quart of water. When boiling, put in the macaroni and boil rapidly for twenty-five or thirty minutes. Stir occasionally with a spatula or wooden spoon, drain through a colander, rinse with cold water, drain again and it is ready for use.

When Larkin Macaroni is cooked in this way it will be firm and white and have a delicious flavor.

Macaroni may also be cooked in a double-boiler. Allow two cups of boiling salted water to each cup of macaroni. It will take thirty minutes to cook. No starch is lost when this method is used, as all the water is absorbed by the macaroni. Cheese, tomatoes, milk and eggs all combine with macaroni to make delicious dishes. It may also be served plain-boiled with a little butter, and used in place of potatoes with any meat.

Fold in last the stiffly-beaten whites of the eggs. Roll up and turn out on a hot platter. Serve with lemon and sugar, or maple syrup.

MRS. J. H. WESTMAN, STRAWBERRY RIDGE, PA.

There are two classes of cakes—sponge cake, in which no butter is used—and butter cakes. Sponge cake includes white, yellow and sunshine cake. Examples of butter cakes are: layer, cup, pound, etc.

In making cakes use the best materials. Flour must be sifted before measuring. Pastry flour is preferred. If bread flour is used, sift two or three times before measuring. Never melt the butter, the bowl may be slightly warmed before the butter is creamed. Larkin Cooking Oil or part lard and part butter may be used with good results.

Dried fruits should always be cleaned and well floured. Never wash currants just before using, or the mixture will be heavy. Add fruit at the last moment. If the fruit sinks to the bottom of the cake, the batter is too thin.

In making cake follow this order, first, get out all necessary utensils and materials, then ingredients. If using a coal range, arrange the dampers so that the oven will be ready by the time the cake is mixed. Next prepare the pans, then mix the cake. For butter cakes, grease the pan with oil, lard or butter, and dredge slightly with flour. For large cakes, line the pan with paper.

LARKIN KITCHEN.

Cakes without Butter

Sponge and Angel Food Cakes are raised by the air which is beaten into the whites of the eggs, and by slowly increasing heat of the oven. Care must be taken in combining the ingredients, not to stir the mixture or reverse the motion of beating or folding.

The flour and sugar should be sifted several times before being measured.

These cakes may be baked in ungreased pans if the pans are kept exclusively for them. The oven is right for these cakes when it turns a piece of white paper a light-brown in five minutes.

Angel food and sponge cake should be placed in a very slow oven, increasing the heat as it bakes, browning at the last.

LARKIN KITCHEN.

CAKES AND FROSTINGS

To Bake Cake

The oven should not be as hot for cake as for bread. It is right for cake baked in loaves if it turns a piece of writing paper a light-brown in five minutes. For layer and small cakes it should be hotter.

The time for baking a cake may be divided into four quarters:

First quarter: The cake rises; little bubbles form on top.

Second quarter: The cake continues to rise, and it browns in spots.

Third quarter: The cake browns all over.

Fourth quarter: The cake shrinks from the sides of the tin, becomes elastic to the touch, and stops rising.

During the baking, the oven heat should be increased gradually but very slightly until the cake is brown, then it may be slightly reduced. On the average a thin loaf will bake in forty minutes, while a thick loaf should bake for at least an hour. Fruit cakes may require several hours.

To turn cake out of the pan, loosen around the edges with a spatula and slip out on a wire cake-cooler or a clean towel or paper. If it sticks, turn it upside down, place damp cloth over the bottom of the pan and let it steam for a few minutes.

Christmas or Wedding Cake

One pound of butter, one pound brown sugar, ten eggs, six cups flour, one teaspoon each soda and ginger, one tablespoon each cloves and nutmeg, two tablespoons cinnamon. One pint blackberry jam or molasses, two pounds almonds, one pound citron, one pound dates, one pound figs, three pounds raisins, and one cup fruit juice, or brandy if you use it. The day before baking prepare the fruit, shell and blanch the almonds. The next morning beat the butter and sugar to a cream, add yolks of eggs beaten light. Then stir the soda into the molasses or jam and add next, then add the flour and spices sifted together and the fruit juice or brandy. Dredge the fruit well with flour, add to the mixture, then the almonds, and fold in last the whites of eggs beaten to a stiff froth. Line the pan with heavy well-greased paper. Have the citron sliced very thin, put a layer of cake batter, then a layer of citron, alternately until all is used. This cake fills a pan ten inches in diameter and five inches deep. It should be baked six or seven hours in a very moderate oven. This is a splendid cake and will keep for months. Half the quantities make a large cake. All Larkin material used except eggs.

Cream Puffs

Put one cup water and one-third cup butter into a sauce-pan. When it boils stir in one cup flour all at once and stir until it leaves the edge of the sauce-pan. Let the mixture cool, then add three eggs, one at a time and beat each one in well before adding another. Mix until smooth, drop by the spoonful on a buttered pan a little distance apart to allow for spreading. Bake thirty minutes in hot oven or until well done. If in doubt as to the cakes being done, take one from the oven, if it does not shrivel up in a few minutes, they are done. This makes fifteen small puffs. When cold fill with cream filling prepared as follows:

One pint milk, four tablespoons corn starch, one teaspoon butter, three eggs, three-fourths cup sugar, one-fourth teaspoon salt, one-half teaspoon vanilla. Wet the corn starch with cold milk, scald the balance of the pint, add sugar and salt, cook five minutes. Beat the eggs, add two tablespoons of the corn starch mixture to them, then pour into the sauce-pan with the rest, and cook several minutes. Take from fire, add vanilla and butter. When cool fill the puffs and serve.

FROZEN DESSERTS

Frozen desserts are easily and quickly made and are both cooling and refreshing. To make the work as easy as possible a good freezer, a burlap bag, a wooden mallet or an axe, a dipper or sauce-pan, ice and coarse rock salt are needed.

Put the ice into the bag and crush fine—the freezing will be accomplished in much less time if the ice is quite fine. Place can containing the mixture in freezer and turn the crank to be sure it fits properly, then pack around it solidly with salt and ice, using three level measures of ice to one of salt. If only a small amount is to be frozen, the ice and salt need not come to the top of the can. In winter snow may be used in place of ice. Never have the can more than three-fourths full as the mixture increases in bulk during freezing, and if the can is overcrowded, the cream will be coarse-grained. Turn the crank slowly and steadily to expose as large surface of mixture as possible to ice and salt. Never draw off the salt water until mixture is frozen, unless it is apt to get into the can, because the salt water hastens the freezing. After mixture is frozen, draw off the water, remove the dasher, and with a spoon pack solidly or place in a mold as preferred, put cork in opening in cover and repack, using four level measures of ice to one of salt. Place an old piece of carpet over the top. When ready to serve, run cool water over the can to wash off salty water.

MRS. JAMES A. SIFES, DETROIT, MICH.

Spiced Cucumber Pickles

To one gallon Larkin Vinegar add one cup each mustard, black pepper, salt and sugar. Put into a jar and mix well. Wash the cucumbers and wipe dry. Place in the vinegar. This is enough for two gallons of cucumbers. They are fine.

MRS. IRA CARPENTER, ALGIERS, IND.

Olive Oil Pickles

Cover four quarts sliced cucumbers with boiling hot water and when cold drain and cover with a weak brine. Let stand over night. In the morning drain. Then add one-half teaspoon each of cloves, allspice and celery seed, two teaspoons cinnamon, one-half cup Larkin Olive Oil, one-half cup sugar, one-half cup mustard seed, one dozen onions and cold vinegar enough to cover thoroughly. Mix well and can.

MRS. CHRIS. CHRISTENSEN, GARNER, IOWA.

Uncooked Cucumber Relish

Pare six large fresh cucumbers and chop fine, add one tablespoon salt, drain cucumbers in a colander one hour, add three small onions chopped fine, one teaspoon Larkin White Pepper, one pint white-wine vinegar; stir all well together, put into glass jars or bottles, seal air-tight and let stand one month before using.

C. ELIZABETH DAVIDSON, MELROSE, MASS.

Cucumber Mustard Pickles

Put into a one-quart fruit jar, four tablespoons sugar, two tablespoons each salt and ground mustard (dry). Wash cucumbers and pack as many as possible into jar. Cucumbers should not be more than four inches long. Then fill up jar with cold vinegar. Screw up air-tight. After six weeks they are ready for the table and are delicious. These will keep several years if kept in a cool place.

MRS. GEO. SARGENT, BRAINERD, MINN.

Cook until tender, will keep without sealing.

MRS. JOHN DREITH, LINCOLN, NEBR.

Old Virginia Chow-Chow

Chop fine eight quarts green tomatoes, three small heads cabbage, six large onions, six ripe peppers, six green peppers. Sprinkle with salt, and let stand twenty-four hours; drain thoroughly, add three quarts vinegar, one and one-half pounds brown sugar. Boil all together one hour, then add: Eight quarts ripe tomatoes, three heads finely chopped celery, one pint horseradish, boil another fifteen minutes after which add: One tablespoon each of cloves and mustard, two tablespoons each white mustard seed, allspice and ginger. LEONORA PAGE, AMHERST, MASS.

Beet Relish

MRS. ELIZA GILLIS, STANHOPE, N. J.

To Can Fruit

The important points in canning are to have the fruit in good condition, the syrup clear, rightly proportioned and boiling hot, the jars hot before putting in the fruit and then filled to overflowing. Keep jars in hot water until needed to fill, stand them in a pan on a folded cloth with a little hot water in the pan. A wide-mouthed funnel is a great aid when doing the work. Have the covers for the jars in another dish of hot water; dip the rubbers as you place them on the jars.

To can small fruits it is better to put the fruit into jars, then pour over the hot syrup and lay on the covers but do not screw down. Put some slats of wood into a wash-boiler so that the jars will stand steady, stand the jars upon them and pour enough warm water into the wash-boiler to come about half way up. Let the water boil five minutes, then take out the jars and screw tight. Always open fruit some time before using; the flavor will be much improved by so doing.

Amount of Sugar

One pound of sugar to one pint of water is a good general rule to follow.

To Can Pears

Allow one-fourth pound of sugar to one pint of water.

To Can Peaches

Allow one-half pound of sugar to one pint of water.

To Can Vegetables

The success of canning vegetables depends chiefly on absolute cleanliness. The jars must have glass or metal covers; do not use those with porcelain lining. All vegetables must be freshly gathered.

LARKIN KITCHEN.

To Can Peas, Lima or Shell Beans

Fill clean jars with freshly-picked peas, fill each jar with water that has been boiled and cooled, adjust rubbers, lay on covers (do not screw), arrange them in a wash-boiler as directed for fruit and boil continuously for two and one-half hours; lift each jar and screw tight without removing the cover. This rule will answer for lima and other shell beans.

LARKIN KITCHEN.

To Can Corn

Shave corn from the cob, fill jars and press down with a wooden spoon. Be quite sure the jar is full. Seal and stand in Larkin Steam Cooker No. 140. Steam for three hours. If you have no Steam Cooker, place a rack in wash-boiler and surround with cold water. If the corn shrinks and you want to fill up the jars do so quickly, screw down and steam a few minutes longer. Corn canned in this way will keep indefinitely if instructions are observed.

MRS. C. CRANDALL, BUFFALO, N. Y.

Canned Snap Beans

To twelve pints string beans, add one pint salt with water enough to cover beans. Boil until half done. Put into glass jars and cover with brine in which beans have been cooked. Seal while hot.

MRS. JOHN H. DENKER, LAKEFIELD, MINN.

To Can Tomatoes

Put tomatoes into a wire basket or colander, plunge them into boiling water for just a moment, remove skins, cut them in half and press out seeds. Put tomatoes into a clean kettle, boil for about thirty minutes, stirring frequently. If there is much liquid boil a little longer. Then follow instructions given for canning fruit.

LARKIN KITCHEN.

Jellies are made of cooked fruit juice and sugar, in nearly all cases the proportions being equal. Where failures occur, they may usually be traced to the use of too ripe fruit.

To Prepare Glasses for Jelly

Wash glasses and put into a kettle of cold water; place on range and heat water gradually to boiling point. Remove glasses and drain. Place glasses while filling on a cloth wrung out of hot water.

To Cover Jelly Glasses

Melt paraffin and cover jelly, then adjust cover.

To Make a Jelly Bag

Fold two opposite corners of a piece of wool-and-cotton flannel about three-fourths yard square. Sew up in form of a cornucopia, rounding at the top. Fell the seam to make more secure. Bind the top with tape, and furnish with two or three heavy loops by which it may be hung.

LARKIN KITCHEN.

Apple Jelly

Take twelve good-sized apples, wipe with a clean cloth and cut in quarters. Cover with two quarts cold water. Leave over night. In the morning stew until the liquid is about half cooked away. Then add the juice of two lemons. Boil ten minutes. Allow the juice to drip through double cheese-cloth. Measure the juice, put an equal quantity of sugar in a granite dish in the oven to warm. Stir occasionally. When the juice begins to jelly round the edge of the pan, add the sugar, boil five minutes, skim and pour into heated jelly glasses. Cover and keep in a cold dry place.

MRS. W. E. BROOKS, LOS MOLINOS, CAL.

Preserved Cherries

To a full pint of stoned cherries take one and one-fourth cups sugar. Boil twenty minutes and turn out into a crock to cool. When cold, put into jars. Boil only one quart of fruit at a time.

MISS FLORENCE ADRIAN, EDINBURG, ILL.

Preserved Figs

Put ripe figs into a pan. Strew Larkin Soda thickly over the figs, cover with boiling water and stand aside until cool. Make a syrup with one pound sugar and one quart water. When the figs are cool take from soda-water and cook in syrup until clear. Put into jars and seal.

MRS. JAMES R. WILKERSON, WALDO, FLA.

Strawberry Preserves (Sun-cooked)

Weigh the strawberries, take as much sugar as fruit, put on stove, bring to a boil, have large meat platters ready to put fruit on and stand in the sun all day. The sun draws out the water and the berries retain their full size. If the sun should not shine all day, put out the fruit a second day, then put into glass jars. One trial will convince any cook how delicious and easy these preserves are. Cherries can be cooked likewise. If it is not possible to put the fruit outside in the sun, cook for five minutes and then seal.

MRS. FRANK H. GODAR, LOUISVILLE, KY.

Pineapple and Strawberry Preserve

To one cup grated pineapple allow two cups strawberries and three cups sugar. Boil for twenty minutes, fill jelly glasses; seal when cold.

MRS. F. L. MYER, EAST ST. LOUIS, ILL.

Rhubarb Conserve

Take six pounds rhubarb cut in small pieces, one pound sun-dried figs cut in strips or put through food-chopper, one-half pound English walnuts and five pounds sugar. Put the sugar over rhubarb, leave over night; in the morning cook until thick, then add figs. Cook another thirty minutes, add walnuts, coarsely chopped, and remove from fire. Put into jelly glasses and, when cold, cover with paraffin. Store in a cool, dark place. This is delicious.

MRS. F. A. SMITH, SALAMANCA, N. Y.

Grape Conserve

Take ten pounds ripe grapes, separate skins from pulp, cook pulp separately (just enough to separate seeds), put through colander; then cook the pulp, skins and ten pounds of Larkin Granulated Sugar together for twenty minutes. Grate the rind from four or five oranges, peel off the white pith, add the pulp and one pound of cut-up Larkin Seeded Raisins to the grapes, cook twenty minutes, then seal tight. Delicious.

MISS JEAN HAUSER, WILKES BARRE, PA.

Plum Conserve

Use this rule for any fruit. Stew two and one-half quarts plums with one and one-half cups water until very soft. Strain through a colander, mash with a wooden spoon. Add as much granulated sugar as you have pulp. Put through food-chopper two oranges, one small lemon, one pound seeded raisins, one-half pound walnut meats and one-half pound sun-dried figs. Use rind of oranges and lemon as well as pulp. Cook all together fifteen minutes, being careful not to burn. This is delicious for sandwiches or to serve with Chicken or Turkey.

MRS. R. DUBUC, BERLIN, N. H.

Red Currant Conserve

Pick four pounds of red currants from the stems. Wash and put them into a preserving kettle with one pound seeded raisins cut in halves, three pounds sugar and four lemons. Peel the lemons very thin, remove the white pith and seeds and cut in thin slices. Boil to a thick jam. If you like spice, add one teaspoon Larkin Cinnamon and one-half teaspoon Larkin Cloves.

CLARA E. COOPER, ASHLAND, MASS.

Orange Marmalade

Shred one thin-skinned orange and one thin-skinned lemon with a paring knife. Put into a New Idea Kettle (No. 210). To each measure of shredded fruit take three of water, cover and set aside for twenty-four hours. Put on fire and boil fifteen minutes. Set aside for another twenty-four hours. Measure contents in kettle. To every seven cups of pulp use eight cups of Larkin Granulated Sugar (buy sugar in a twenty-five pound bag). Boil until it jells which will be in about twenty minutes, pour into jelly glasses, cover with paraffin. One orange and one lemon with quantities given will make seven glasses of marmalade at a cost of less than three cents a glass.

MRS. EDWARD HIEBEL, HOLYOKE, MASS.

Grapefruit Marmalade

Slice very thin, one orange, one lemon and one grapefruit, leaving out the bitter center of grapefruit. Add eight cups water and set aside twenty-four hours. Boil twenty minutes and set aside another twenty-four hours. Measure and add an equal quantity of sugar and boil until it jells. This will make one dozen glasses. For a delicious sherbet, add one pint of good lemonade to two glasses of marmalade. Freeze.

MRS. CHARLES WALKER SCHLAGEL, DES PLAINES, ILL.

Carrot Marmalade

Scald and rub the skin from a number of carrots. Then put the carrots through the food-chopper. To each pint of the pulp add the juice and grated rind of one lemon. Put into a sauce-pan. For each quart pour over the mixture three and one-half cups Larkin Granulated Sugar and let it stand all night. In the morning boil until it is clear and appears sufficiently cooked. Put into jelly glasses. This is a particularly delicious marmalade and so economical that almost anyone may enjoy it.

MISS CHARLOTTE BIRD, ANN ARBOR, MICH.

Rhubarb Jam

Wash and cut up without removing the skin, seven pounds rhubarb. Put into the kettle with five pounds sugar, one pound seeded raisins and two oranges thinly sliced. Cook until very thick taking care not to let it burn. Put into glasses and seal.

MRS. M. STOTT, DORMANSVILLE, N. Y.

Pear Chips

Eight pounds pears, six pounds Larkin Sugar, three lemons, one quart cold water, one-eighth pound ginger root. Cut the pears fine, grate the lemons and squeeze out the juice. Now add the sugar, water and ginger root; cook slowly for three hours.

MRS. G. E. LARRABEE, BINGHAMTON, N. Y.

Quince Honey

Pare and grate five large quinces. To one pint boiling water add five pounds sugar. Stir over fire until sugar is dissolved, add quince and cook fifteen or twenty minutes. Turn into glasses. When cold it should be about the color and consistency of honey.

MRS. S. W. WARD, FALLSTON, MD.

FRUIT JUICES AND BEVERAGES

Coffee Cleared with Egg

For six cups of boiled coffee mix three-fourths cup ground coffee, one-third of the white of an egg and one-half cup cold water in the coffee-pot. Pour over this one quart boiling water, stir thoroughly. Boil three minutes. Stir again and stand on back of stove, where it will not boil, for ten minutes. Be careful to see that the coffee spout is free from grounds before pouring. Never boil coffee furiously or the true flavor will be lost.

LARKIN KITCHEN.

Coffee without Egg

Allow two tablespoons of coffee for each cup. Scald the coffee-pot. Pour boiling water on the coffee and boil five minutes. Set it back where it will keep hot, but not boil. Add a little cold water; pour out a little coffee and pour back again, to clear the spout. Or the coffee and cold water may be put together in the pot over night and brought to the boiling point in the morning. To use a Larkin Percolator is much the best and easiest method.

LARKIN KITCHEN.

Tea

Scald the teapot and use two teaspoons of tea to each pint of boiling water; stir the tea and it is ready to serve. Never use a metal pot for tea, as the tannic acid acts on the metal, making the tea unwholesome.

LARKIN KITCHEN.

Cocoa

Scald three cups milk in a Larkin Double-Boiler. Mix thoroughly three tablespoons Larkin Cocoa with two tablespoons sugar, a few grains of salt and add, while stirring constantly, one cup boiling water. Boil three minutes and pour into the hot milk. Beat several minutes with a wire whisk or egg-beater. This is called milling and will prevent a scum from rising. Flavor with one-half teaspoon vanilla extract. Use whipped cream or a marshmallow in each cup.

ZULA BREEDEN, HASKELL, OKLA.

Chocolate

Two ounces Larkin Unsweetened Chocolate, four tablespoons sugar, one cup boiling water, few grains of salt, three cups milk. Scald milk. Melt chocolate in small sauce-pan placed over hot water, add sugar, salt and boiling water gradually, when smooth, place on range and boil one minute; add to scalded milk, and serve in chocolate cups with whipped cream. One and one-half ounces sweet chocolate may be substituted for the unsweetened chocolate. Being sweetened, less sugar is required.

LARKIN KITCHEN.

Grape Juice

Wash and stem grapes (Concords preferred). Measure, and to every four quarts grapes before cooking, add one quart cold water. Boil until soft. Remove from fire and when cool enough to handle, strain through a coarse cloth twice to extract juice. Measure again and to each quart of juice add one cup of Larkin Granulated Sugar. Place on fire and boil ten minutes. Remove and bottle at once. Seal air-tight with Larkin Paraffin Wax.

MRS. FLORENCE HALL, NATICK, MASS.

Shrub

Almost any small fruits may be used for this, but raspberries are particularly good. Berries that are not nice enough for the table or those that are gathered damp may be used for this syrup. Allow the berries to ferment, then strain and use one cup of sugar to one quart of juice. Boil fifteen minutes, if not sufficiently acid, add a little vinegar. Use two teaspoons to a glass of water.

MRS. J. S. MILLS, SOUTH ASHBURNHAM, MASS.

Fruit Juice and Syrup

Secure perfectly ripe fruit, cook with about one-fourth as much water as you have fruit. Press out the juice and strain as if for jelly. Sweeten to taste and boil for twenty minutes in a preserving kettle. If for syrup, use equal amounts of sugar and juice. Have clean sterilized bottles standing in a pan of boiling water and corks that will fit completely down inside bottle mouths and one cup of melted Larkin Paraffin Wax. Fill each bottle with the boiling juice to within one and one-half inches of the top. Press down a heated cork until it touches the juice and fill the remaining space above the cork with melted paraffin, adding more as it hardens until a complete cap is formed around the top of mouth. This will keep for any length of time if stored in a cool, dark place.

ELIZABETH MARONEY, MELROSE, MASS.

Lemon Syrup or Fresh Lemonade

Boil one cup sugar and two cups water twelve minutes, add one-third cup lemon juice to syrup. Dilute with ice-water as needed. Good for picnics. For fresh lemonade put one teaspoon sugar into a glass; add the juice of one-half lemon. Stir until sugar is melted. Fill glass with cold water and it is ready to serve.

LARKIN KITCHEN.

Fruit Punch

Make one quart strong tea (using Larkin Mixed or Ceylon Tea) add sugar to hot tea. Make one-half gallon lemonade with six lemons and four oranges. The oranges may be cut in small pieces; add one can Larkin Pineapple cut in small pieces, one bottle Maraschino cherries, one-half pound Malaga grapes with seeds removed; sweeten to taste. This makes about one and one-half gallons. Any fruit juice on hand may be used with this. Serve very cold.

MRS. V. W. CASTEN, SUFFOLK, VA.

Club-of-Ten Punch

Pour one pint of hot water over the grated rind of one lemon and one pound of sugar. Boil five minutes. Strain, and while still hot, slice into it two medium-sized bananas and three large peaches (canned peaches may be used and put in when cold). Add a cup of grated pineapple (either fresh or canned), one pint of canned cherries, the juice of seven lemons and two oranges. Put a large block of ice in the center of the punch-bowl, add two quarts of water and let stand two hours in a cool place. At the last moment add a few fine strawberries. This will serve twenty-five people.

NAME NOT GIVEN.

Ice-Cream Candy

Boil two cups sugar with one-half cup water, one tablespoon vinegar, one tablespoon butter. Do not stir the mixture. Boil until crisp when tried in cold water; when cooked add one-half teaspoon vanilla extract. When cool pull until white, the longer you pull the better the candy.

MISS EVELYN WHITNEY, ATTLEBORO, MASS.

Chocolate Cream Candy

Two cups sugar, two-thirds cup milk, one tablespoon butter, two squares chocolate (four tablespoons cocoa may be used instead of chocolate), one teaspoon vanilla. Put butter into granite sauce-pan; when melted add sugar and milk. Heat to boiling point; then add chocolate and stir constantly until chocolate is melted. Boil until a little dropped into cold water will form a soft ball. Remove from fire, add vanilla, cool and beat until creamy and mixture begins to sugar slightly around edge of sauce-pan. Pour at once into a buttered pan, cool slightly, and mark in squares. One-half cup nuts or raisins may be added.

MRS. R. ROMMEL, ELIZABETH, N. J.

Cocoanut Bars

To one pound or two and one-half cups powdered sugar, use the juice of one lemon, white of one egg, and make into a smooth ball. Roll into a sheet one-half inch thick, sprinkle thickly with Larkin Shredded Cocoanut; put one-half upon the other and cut into bars.

MRS. HAEFNER, PHILADELPHIA, PA.

Nut Loaf Candy

Two pounds granulated sugar, one and one-half cups Larkin Corn Syrup, one-half cup boiling water, one-half pound English walnut meats, whites of two eggs beaten light. Boil the sugar, water and syrup until it hardens when dropped into cold water. Pour slowly over the whites of the eggs. Stir in one-fourth teaspoon Larkin Vanilla Flavoring Extract and the nuts; beat until light. Then pour out and cut into squares.

MISS REBA PETERS, OTTERBEIN, IND.

Use Level Measurements Only. See Page 6.

Candy Baskets

Take one cup sugar, one-half cup water, a pinch of cream of tartar and stir together. Put on stove and boil (do not stir after it is on the stove) until it cracks when dropped into cold water. When it is almost done it becomes very bubbly. Pour it out on a buttered slab and gradually work it into a ball or lump, by folding the edges into the center. When cool enough to handle, add one-fourth teaspoon Larkin Culinary Paste Color moistened with one-half teaspoon Larkin Flavoring Extract. Then pull and form into baskets making each a different shape. Butter the hands occasionally while pulling. These quantities will make three small baskets. It is well to keep in mind that these extracts and colors go together: When wintergreen extract is used, color with red culinary paste. When lemon use yellow; when spearmint use green; when nutmeg, green and red mixed, using twice as much green as red—you will then have gray; when orange use red and yellow; when cinnamon use heliotrope; sassafras use very little yellow; peppermint use no color. If you do not care to make the baskets the recipe is equally good for candies. They may be cut in strips or formed into small balls. For a children's party the baskets make a delightful decoration or gift especially as they are good to eat as well as to look at.

MRS. EDWARD H. SCHELL, HARRISBURG, PA.

Fruit Candy

This is candy you can let the children make. Wash one cup each Larkin Figs, Dates and Prunes; add one cup seeded raisins and walnut meats. Put all through the food-chopper. Mix thoroughly and it is ready to use. Form into small balls, dip in melted chocolate and place on waxed paper to dry. Cherries, nuts, pieces of candied pineapple may all be used for the center; if fillings are used you may then call them Surprise Balls, others may be dipped in fondant used for making candy baskets. This fruit is also delicious as a sandwich filling.

CECELIA HAHN, WABASH, IND.

Cream Caramels

One-half cake or four ounces Larkin Unsweetened Chocolate, one pound Larkin Powdered Sugar, one scant cup milk, one-half cup butter. Boil these together from five to eight minutes or until the mixture scrapes off white from the side of the pan. Take from fire, add one teaspoon vanilla and beat hard until it thickens, pour into well-greased pan and when nearly cold cut in squares.

MRS. HENRY M. BUETTNER, BALTIMORE, MD.

Fondant

Two and one-half pounds sugar, one and one-half cups boiling water, one-fourth teaspoon cream of tartar. Stir ingredients together, heat slowly to boiling point; then boil without stirring until a soft ball will form when dropped into a little cold water. Pour fondant into a shallow pan, flavor with any Larkin Flavoring Extract, let stand a few minutes to cool but not long enough to become hard around the edge; stir with a wooden paddle until white and creamy. It will quickly change from this consistency and begin to lump, when it should be kneaded with the hands until perfectly smooth.

Put into a bowl, cover with oiled paper and stand aside for twenty-four hours if possible. It will then be found easier to use. Always make fondant on a clear, dry day. Cream Nut Bars, Cream Mints and various candies may all be made with this fondant.

SHIRLEY M. SHAFFER, OIL CITY, PA.
